### Revenues

Turkish auto industry grew by 30% in 1H20 to 259,471 units. Domestic sales were robust except when Covid-19 impact peaked in March and April. Pent-up demand, low interest rates, strong second hand market and ongoing campaigns supported this performance. Sales rose across all segments YoY: PC 30%, LCV 45%, MCV 16% and Heavy Trucks 44%. PC industry share was 78.5% (1H19: 78.6%). LCV industry share grew to 10.8% (1H19: 9.8%). Ford Otosan maintained its CV leadership with 35.1% share and was 3rd in the total industry with 10.2%.

As Europe became the center of the epidemic, March and April saw significant declines in sales. The industry started to pick up May onwards and our exports also started recovering with the gradual normalization in production and sales.

Domestic Revenues were TL 3,555 million in 1H20, up 51% as a result of 30% YoY growth in volumes, product mix and ongoing pricing discipline.

Export Revenues were TL 11,539 million. Despite 43% decline in volumes, YoY decrease in export revenues was limited to 28% due to our cost plus export structure (higher cost base in Q2 due to low production), product mix and strong € against TL.

Total Revenues were down 18% YoY to TL 15,094 million, despite 35% volume decline, mainly driven by the decrease in export units. Share of exports in total revenues was 76% in 1H20 (1H19: 87%).

### Profitability

Profitability was strong in 1H20 due to i) robust domestic volumes and favorable product mix, ii) higher contribution of domestic market, iii) pricing discipline, iv) additional stringent cost reduction measures, capital spending cuts and OpEx control against Covid-19 impact and v) cost-plus export contracts.

Gross Profit declined 9% YoY to TL 1,750 million due to lower volumes. Increased focus on cost reduction actions, additional stringent measures and short term working allowance support from the government limited further deterioration. EBITDA grew 8% YoY to TL 1,708 million while **EBITDA per vehicle reached a record high of EUR 1,739 in 1H20 and EUR 2,016 in 2Q20**. EBITDA excluding the currency impact was down 3% YoY to TL 1,526 million. Operating Profit was up 4% YoY to TL 1,265 million mainly explained by the increase in Net Other Income due to 1) declining non-cash financial expenses on trade payables of material purchases driven by lower interest rates, 2) decreasing manufacturing related purchases in line with the lower production volumes (reported under Unearned Financial Expense).

Net Financial Expenses increased 11% YoY driven by 12% higher Net FX Loss. Profit Before Tax increased 2% YoY to TL 892 million. Net Income was TL 909 million, up 2% and higher than PBT due to Tax Income Resulting from Deferred Tax Asset.

Margins: Gross 11.6% (+1.2 pps YoY); EBITDA 11.3% (+2.7 pps YoY); EBITDA excluding other income 10.1% (+1.6 pps YoY); Operating 8.4% (+1.8 pps YoY); and Net 6.0% (+1.2 pps YoY).
